Parenting is the Roots of Our Past and the Branches to Our Future

Let's talk!

about Us

PEERS aims to prevent child abuse and neglect by equipping parents with the skills they need to raise happy and healthy children. In addition to free child care, we offer parenting classes and an adolescent parenting program.

FROM OUR TEACHERS

Mrs. Lauren | Infant Room

I believe that all children should be acknowledged, respected and treated as the tiny humans they are, their needs, wants, likes, dislikes etc. They are the future of this world. While I do not have any children of my own, I have always valued the way that I have an understanding and ability to connect with them.

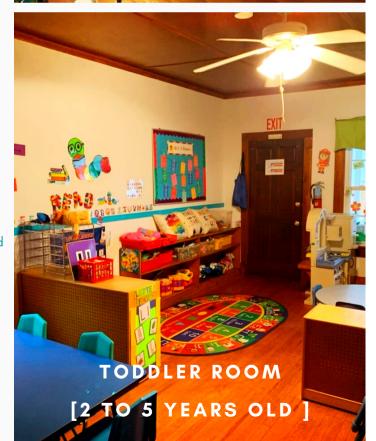

It is my utmost duty to make your little ones in my care feel safe, heard, validated and help build their confidence in all areas. My goal is to help build a foundation of milestones that help your little one in my care for their oh so bright future ahead.

Ms. Nicole | Toddler Room

I have worked as an art teacher and am currently pursuing my master's in art history so I am looking forward to sharing my love of art and creativity with your child. Your child will also learn skills and how to engage in a classroom setting to prepare him/her for a pre-k or kindergarten structure. My hope is that you and your child feel loved and secure during his/her time here with us and that they are excited to learn

alongside friends here at PEERS!
